Other questions will require you to decode information by determining if the information that has already been converted into letters or numbers is correct. Complete directions will be provided; no previous knowledge of or training in any coding system is required.
Name and number checking
These questions test for the ability to distinguish between sets of words, letters, and/or numbers that are almost exactly alike. Material is usually presented in two or three columns, and you will have to determine how the entry in the first column compares with the entry in the second column and possibly the third. Understanding and interpreting written material
These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages.
